“Open Letter To Lisa, From Lamont”

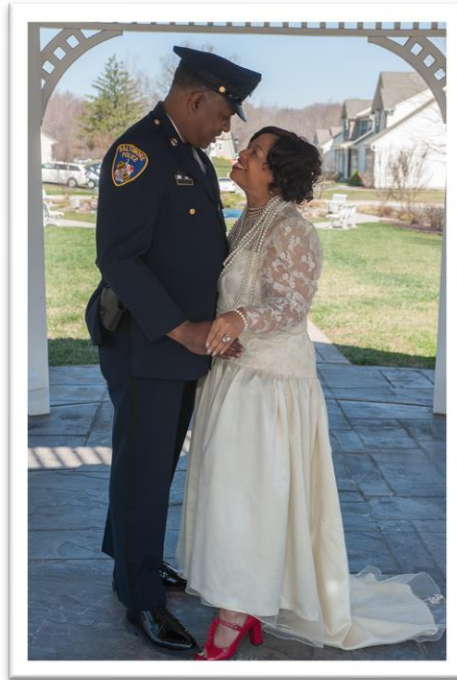

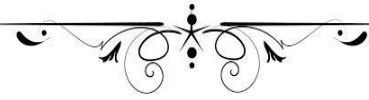

A Letter To My Love

Dear Love,

You have fought a good fight. You have given it your all. The hardest thing with you catching COVID was my inability to be with you in the hospital through this process. You are my best friend, I love you with all my heart, body and soul. There was nothing I wouldn't do for you all my life. Most of all, I will miss our daily conversations, and all of those we would have had in the future. I know you are in a better place. No more pain, you can rest in peace. You were the rock of our family, the glue that kept everything together. I know I would not be the man I am today without you, and I thank you. You always said that I was a diamond that needed a little polishing, and you did that very well. A strong black man needs a strong black queen as his foundation and to make him strong. So, I will end by saying “see you later, and not goodbye.”

*Love Always,
Lamont*

*At the rising of the sun and at its going down,
We remember you.
At the blowing of the wind and in the chill of the winter,
We remember you.
At the opening of buds and in the rebirth of spring,
We remember you.
At the rustling of leaves and in the beauty of autumn,
We remember you.
In the beginning of the year and when it ends,
We remember you.
So long as we live, you shall live.
For you are a part of us that can never be forgotten.
We will remember you.*
